Welcome

What this guide covers

Jackpot Sweeps is a social arcade. One account plays every game in the lobby, and everything you hold lives in three coins.

COIN	WHAT IT IS	CAN YOU CASH IT OUT?
Sweep Coins (SC)	Your main balance. 1 SC is worth $1.	Yes, the only coin you can
Gold Coins (GC)	For fun, in the games that accept them	No
Diamonds	Your rewards, spent in the Treasury	No

The live version

Some things change from time to time: what the Treasury sells, the prizes on the wheel, and the extras the team switches on and off. Those are not printed here. The **Player guide** page (in the app menu, or at **winjackpotsweeps.com/guide**) shows them live, read straight from the site.

If an amount in the app ever disagrees with this guide, the app is right.

Your coins

Sweep Coins

Sweep Coins (SC) are your main balance. **1 SC is worth $1**, you play every game with them, and they are the only coin you can cash out.

- They come free with every Gold Coin package. The SC you get is the full amount you were charged.
- Winnings you bring back from a game to your wallet are Sweep Coins.
- The monthly Market draw, when it is running, pays **50 SC each to 5 winners**, straight to the wallet.

There is no free way to get Sweep Coins. The free ways to take part pay Diamonds, XP, spins and draw tickets.

Bonus SC is free play. A welcome match, a referral share or SC from the Market can be played but never cashed out from the wallet. It is used first on your next game load, it loads in full and on its own, and the smallest free play load is **10 SC**. What you win with it is yours.

Gold Coins

Gold Coins (GC) are for fun. They come with every Gold Coin package.

- Games that take both coins let you pick Gold Coins or Sweep Coins for that session.
- To switch coins, collect your balance from the game first.
- Gold Coins have no cash value, can never be redeemed, and cannot be spent in the Treasury or the Market.

Diamonds

Diamonds are your rewards. They are separate from your coins.

- A one-time welcome gift of Diamonds plus **50 XP**. Claim it from the welcome popup or the Market.
- The daily bonus: **5 Diamonds at Peasant up to 100 at Legend**.
- Every Gold Coin package includes some (see the package table).
- Roulette wins, and a one-time gift each time you reach a new rank.

Spend them in the Treasury. Diamonds are not cash and cannot be cashed out.

Packages and games

Gold Coin packages

Every purchase is a Gold Coin package. Tap **Wallet**, then **Get Coins**, pick a package, pick card, Cash App or crypto, check the total and confirm. It lands as soon as the payment clears. Nobody has to approve it.

PRICE	GOLD COINS	FREE SC	DIAMONDS
$10	500 GC	10 SC	2
$25	1,250 GC	25 SC	6
$50	2,500 GC	50 SC	12
$100	5,000 GC	100 SC	25
$150	7,500 GC	150 SC	37
$200	10,000 GC	200 SC	50

- Every dollar also earns **2 XP** toward your rank.
- The most you can pay in one go is **$300**. There is no daily limit.
- The payment method's fee is added on top at checkout and comes back to you as Sweep Coins. The cashier shows the exact figure before you pay.
- Zelle is not offered for packages, because a package needs an exact price.
- If you pay a different amount on the card checkout page, you still get every SC you paid for. The Gold Coins and Diamonds come from the biggest package your payment covers.

Your games

Each game has its own account and its own balance. One Jackpot Sweeps login plays all of them.

- **New to a game?** Tap Games, pick it and tap **Create account**. Your username and password show once, so save them.
- **Already had an account there?** Use **Claim account**. The team checks it and links it, usually the same day.

Moving coins

MOVE	HOW	RULES
Wallet to game	Load from the game's card	Whole dollars. Smallest load 5 SC, or what is left if your wallet holds less
Game to game	Game Transfer	$1 to $150 per move, instant
Game to wallet	Redeem to Wallet	Brings the balance back, ready to cash out

- A game only takes more coins while its balance is **$15 or less**. Play it down or pick another game.
- Moving coins is free.
- Lost a game password? Open the game's card in My Games and tap **Reset**. The new one shows once on screen. Your Jackpot Sweeps password and your game passwords are separate.

Rewards

Daily bonus and free spins

Tap the **Bonus** button at the top of the lobby. Claim **Daily Reward** for your Diamonds plus **25 XP**, and **Free Spins** for Roulette. Each comes back 24 hours after you claim it. A missed day does not stack up.

RANK	DAILY DIAMONDS	DAILY FREE SPINS
Peasant	5	1
Knight	10	2
Prince	25	3
King	50	4
Emperor	75	5
Legend	100	6

VIP ranks and XP

Your rank goes up as you earn XP. XP never runs out or resets, and ranks never drop.

RANK	XP NEEDED	ONE-TIME RANK-UP GIFT
Peasant	0	None
Knight	50,000	250 Diamonds + 2 spins
Prince	375,000	500 Diamonds + 3 spins
King	600,000	1,000 Diamonds + 4 spins
Emperor	850,000	2,500 Diamonds + 5 spins
Legend	1,330,000	2,500 Diamonds + 6 spins

XP comes from packages (**2 XP per dollar**), the daily bonus (**25 XP**), XP prizes on Roulette, XP packs in the Market and **50 XP** in your welcome gift. Rank does not change your cash out limits.

Roulette

The prize wheel on your bottom bar. Every spin uses one spin, never coins or Diamonds. Spins come free every day, as a bonus when you rank up, and in packs from the Market. Free spins are used first. Land on a no-prize slice, such as Miss, and your spin is handed back. The live prize list and chances are on the Player guide page.

The Treasury

The Treasury (the **Market** button) is where Diamonds get spent: Sweep Coins, Roulette spins, draw tickets and XP. The live price list is on the Player guide page.

Turning Diamonds into Sweep Coins:

- Your first purchase (any amount) unlocks it.
- You can turn up to **25 SC a day**. The day resets at **4 PM Eastern**.
- Beyond a small free amount each month, it needs purchases made the same day. The Market shows exactly what is needed.
- SC from the Market is play credit. It cannot be cashed out itself, but what you win with it can.

Monthly Market draw

When it is running, each month **5 different players win 50 SC each**. Every ticket you hold is one chance. Tickets come from the Market and from Roulette, including free spins, and free tickets have the same chance as any other.

- Tickets stop selling at midnight Eastern when the month ends.
- Each month is drawn on the **6th of the next month at 6 PM Eastern**.
- You can win once per draw. Winners get a popup and an email, and tap **Claim Prize**.

Welcome match and referrals

- Pay for your first purchase of **$10 or more** with **Tierlock** and you get a **50% match, up to $250**, as free play in your wallet. It applies once, only to a first purchase paid with Tierlock. Accounts with a claimed (linked) existing game account do not get it.
- Share your link from **Refer & Earn**. When a friend signs up with it and pays for their first purchase with **Tierlock**, you earn a share of it. The screen shows the current share and cap. Referral bonuses are held for **24 hours**, then reviewed and paid.
- Running promos show in the lobby.

Leaderboard and extras

The leaderboard ranks players by game wins this week, and resets **Sunday at 12:00 AM Eastern**. Turn on **Hide my name** in your profile to show as Anonymous. Extras such as streaks, missions, drops and gift boxes appear in the Earn Rewards panel when the team switches them on. None of them pay Sweep Coins.

Cashing out and your account

How cashing out works

Cashing out (Redeem) sends Sweep Coins from your wallet to you as cash.

1. Bring winnings back from your games with **Redeem to Wallet**.
2. Tap **Wallet**, then **Redeem**.
3. Pick how to be paid, enter the amount and confirm.

The coins leave your wallet when you ask. Your request is checked and approved, and the Wallet screen shows the status. You can ask at any time.

Ways to be paid

METHOD	SMALLEST	WHEN IT IS PAID
Cash apps (Cash App, Venmo, Zelle, Chime)	$100 must arrive after fees	Sent as soon as you confirm
Tierlock	$50	Once a day, in the 10am to 11am Eastern window

On a cash app payout, the fee comes back to you as bonus SC once the payout lands. The Redeem screen shows the exact amount you will receive before you confirm.

The rules

- The smallest cash out is **$10**.
- Up to **$500 per cash out** and **$500 a day**. The day resets at midnight Eastern. The limit is the same at every rank.
- **Play through first:** you must have loaded at least as much onto games as you bought. Only loading counts, win or lose.
- Free play and bonus SC cannot be cashed out.
- The name on your payout account must match yours. Payments cannot be reversed once sent.

Your account and safety

- One account per person, **21 and over**.

- Not available outside the United States or in **Washington, Idaho, Michigan and Nevada**. A VPN can trigger this, so turn it off.
- Two accounts can get both blocked.
- Support will never ask for your password. Email **support@jackpotsweeps.com** or use the chat.
- No purchase is needed to play. The **Free Entry** page lists every free way to take part.
